# THE 7 PRINCIPLES OF LEAVE NO TRACE

Use these principles to continue our efforts of keeping our public lands wild, and reducing human impact on these lands!

## PLAN AHEAD AND PREPARE

Know before you go! Check the weather, local regulations, and trail conditions. Know your group's abilities and how to use the gear you carry.

## TRAVEL AND CAMP ON DURABLE SURFACES

Only use established trails and sites. Know the local camp regulations and disperse your use in primitive areas.

## DISPOSE OF WASTE PROPERLY

Do not leave behind banana, orange, or apple peels. Pack out all garbage, including hygiene products. Know how to properly dispose of human and pet waste, toilet paper, and soapy water.

## LEAVE WHAT YOU FIND

Do not collect natural items or move them. Be aware of local invasives and prevent their spread through transportation. Help preserve historical or cultural sites.

## MINIMIZE CAMPFIRE IMPACTS

Know your local campfire and stove regulations. Use branches you can easily break, and completely burn out or extinguish fires. Do not cut green material from trees.

## RESPECT WILDLIFE

Use the "rule of thumb". Avoid wildlife during sensitive times. Use proper food storage procedures and keep pets under control.

## BE CONSIDERATE OF OTHER VISITORS

Use the Right of Way rules. Keep pets on leash at all times, and camp at a distance from others. Use quiet voices and be respectful with the use of electronics, music, and drones.
